SYRIACA:

JOANNIS EPISCOPI EPHESI SCRIPTA ADHUC INEDITA.

P. 2—288. „Liber Narrationum Actorum Beatorum Hominum Orientalium". E codice **14647** ff. 1—136 r. a. Joannes auctor in titulo Peregrinus tantum cognominatur et quondam monachus in monasterio S. Joannis quod Amidae erat. Attamen procul dubio is est quem episcopum Monophysitam Ephesi sive Asiae fuisse novimus. Nam ipse declarat, sese e patria in Syriam et urbem regiam CPolin profectum esse (f. 51 r. a.), in ea urbe monasterium Syrorum condidisse (f. 73 v. a. 97 r. a.), anno 529 p. Ch. n. diaconatum accepisse (f. 77 r. b.), annis 567 (f. 86 r. a.) et 568 (f 136 r. a.) scripsisse, in alio libro fusius de persecutione et monachorum conventu CPolitano egisse (f. 91 v. b. 113. r. b.), Asiae gentilibus ad fidem Christianam convertendis occupatum fuisse (f. 103 r. b. 104 r. a.), compluribus ecclesiis et monasteriis simul praefuisse (f. 126 r. a.); quae omnia cum Joannis Ephesini

nasterio Barçaumae (prope Melitenen cf. Assem. B. O. t. II. in Diss. de Monoph.) admodum diligenter exaratus. Scripturae specimen in hujus t. tab. II, argumentorum in t. I. p. 26, quibus adde quae Monophysitarum historiam spectant, Vitas Barçaumae (f. 1 r.—18 v. cf. **14732** f. 197 v. a.), ejus socii Simeonis Stylitae (— f. 48 r. a.), Petri Iberi (— f. 78 v. b.), Joannis cognomine Medici (— f. 84 r. a.), Joannis abbatis Aphthoniae (— 87 v. b.), Abrahami qui Barçaumae praeceptor (ܪܒܐ) fuit (f. 227. r. a.—235 r. a.), Jacobi episcopi Nisibis f. 283 r. b.—285 r. a. — Joannis nostri *Vitarum cap.* 3 legitur f. 276 r. a.—279 r. a., porro *Vita Jacobi Burdĕ'ono* quam h. t. pp. 364—383 edidi. Joannis Telensis vita quae f. 152 r. a.—165 v. b. exstat, non est nostri Vitarum cap. 24, sed ab Elia quodam ad Sergium et Paulum fratres spirituales scripta.

Saeculi XIII? ADD. **14735** chartaceus 24 × 15 cent. Scripturae specimen in h. t. tab. II. Sunt vitae Sanctorum et sermones, omnia argumenti ascetici. Praeter cap. 18 *Vitarum* (f. 171 v. b.) etiam cap. 33 de *H'ala* e monasterio Edessenorum integrum continet (f. 157 v. b.), unde codicis **14647** lacunam explevi (h. t. pagg. 199 et 332).

Peculiaris in hoc libro legendo difficultas orta est e nescio cujus monachi imprudentia, qui literas in interioribus membranarum paginis, ut fit, heic illic detritas, haud tamen prorsus evanidas, nigerrimo atramento repingere conatus est. Itaque de primae manus scriptura hodie subinde non liquet, cujus rei exempla dubii signo et observationibus in margine additis notare studui. — Caeterum in libro corrigendo ipse scriba aut nescio quis libri lector singularem curam adhibuisse videtur, nam in plus unius paginae angulo legitur صح i. e. صُحِّحَ „emendatum est" addita formula „ora pro me „frater" vel simili.

Saeculi IX. ADD. **18814** pergamenus 20 × 13 cent. Scripturae specimen in h. t. tab. II. Duabus constat partibus, quarum altera (ff. 1—102) saeculo VIII, altera (— f. 262) IX scripta esse videtur. Insunt Joannis Monachi sermones et alia argumenti ascetici. E parte posteriori *Malchi vitam* (h. t. p. 356 sqq.) descripsi.

Saeculi XII? ADD. **14730** chartaceus 18. 5 × 13. 5 cent. Scripturae specimen in h. t. tab. II. Insunt post Palladium de Monachis Aegyptiacis inter aliorum Sanctorum vitas excerpta duo Joannea, nempe f. 121 v. ex *historia Susannae* et f. 125 r. e *Vitarum* cap. 11 de *H·arpat·* chorepiscopo.

Saeculi XII? ADD. **7190** pergamenus 22 × 14. 5 cent. Scriptura quamvis nitida, lectu plerisque difficilior, cujus specimen in h. t. tab. II. Librum descripserunt Rosen et Forshall in Catalogo anni 1838, pp. 77 sqq. Nos ei debemus *Vitarum Beatorum Hominum caput* 52, quod in **14647** desideratur, itaque in hoc tomo pp. 333 sqq. repetitum est; etiam partes *Historiarum Susannae* et *H·arpat·*, cujus nomen pessime scriptum per ܚܪܦܛ ܠ reddiderunt Catalogi auctores, nec habebant unde Joanni hanc vitam vindicandam esse efficerent.

Anni 1197. ADD. **12174** pergamenus ingens 49 × 32 cent., in mo-

cujus sedis fuerit et quando vixerit, non liquet. Narrandi ratio Joannem nostrum pro auctore habere omnino vetat.

ff. 148 r. a.—157 v. a. ܬܫܥܝܬܐ ܘܕܘܒܪܐ ܕܚܝ̈ܐ ܕܐܒܐ ܡܪܛܝܢܝܢܐ „Historia et acta vitae patris Martiniani" teste subscriptione e Graeco translata. Vixit hic saeculo IV et in ecclesia Romana die 13 m. Februarii colitur. Eadem historia exstat **12174** ff. 188 v. b.—190 r. a.

ff. 157 v. b.—171 v. b. ܣܗܕܘܬܐ ܕܛܘܒܢܝܬܐ ܡܪ̈ܬܝ ܦܒܪܘܢܝܐ „Martyrium beatae dnae Febroniae" quae sub Diocletiano passa est; cff. Acta Sanctorum diei 25 m. Junii et Anecd. t. I. p. 21.

Voluminis colophon editus exstat in Curetoni praefatione.

Anni 718. Add. **12154** pergamenus 24. 5 × 16 cent. Annum vide f. 289 v. in fine indicatum. Scripturae specimen h. t. tab. II. Ejus pars prima est scriptoris anonymi ܦܠܪܘܦܘܪܝܐ ܐܘ ܡܦܩ ܒܪܘܚܐ ܕܗܝܡܢܘܬܐ ܬܪܝܨܬ ܫܘܒܚܐ ܘܫܠܝܚܝܬܐ „Plerophoria, sive excusatio fidei orthodoxae „et apostolicae" ex mente Monophysitarum, quae unam particulam e nostri *Historia Ecclesiastica* continet, h. t. p. 363 editam.

Anni 850. Add. **14651** pergamenus palimpsestus 20 × 12. 5 cent., cujus scriptura inferior Evangeliorum partem refert. Cff. Anecd. tom. I. pagg. 20—21 et tab. XIV. n. 71—72. Hunc in auxilium vocavi in *historia Susannae* e cod. **14650** describenda et variarum lectionum specimina quaedam addidi.

Anni 875. Add. **14650** pergamenus 25 × 16. 5 cent. Scripturae specimen Anecd. tom. I. tab. XV. num. 73 et 76, argumentorum index ib. pagg. 24—26. Inde deprompsi excerpta ex *Historiae Ecclesiasticae* parte secunda (h. t. pp. 289—329), *historias Susannae et Mariae* (pp. 343—355). Porro ejusdem libri ope lacunam implevi quae in cod. **14647** exstat (cff. pp. 30 et 330). Alteram in ejusdem capite 2 obviam e cod. nostro sarcire non potui; cf. Conspectus Tomi Secundi.

INDEX CODICUM MANUSCRIPTORUM

Anni 688. ADD. **14647** pergamenus ejusdem et mensurae et manus. Scripturae specimen Anecd. t. I. tab. X. num. 46 et 47 ac paulo emendatius t. II. tab. I, quae integram paginam imitatur. Insunt

Nescio quare dubitet RPS. 197 ut saeculi sexti sit Legum Saecularium exemplar in cod. 14528 exstans; quod nuper denuo cum Wrightio inspexi, nec vidimus quo pacto ad aliam aetatem referri posset atque ea libri pars cujus subscriptionem anni 501 in tom. I. tab. III. spec. 9 edidi; etsi ejusdem manus esse vix videtur. De ipsius exemplaris momento in Academia Regia Berolinensi verba fecit vir cl. Rudorff, quorum haec est peroratio: »schon jetzt stellt es sich heraus, dass die »Leges Constantini eine vorjustinianische Lex Romana canonice compta »enthalten, welche zwischen der Collatio (legum Mosaicarum et Roma»narum) und der von Maassen entdeckten die Mitte hält". Cum caeteris hujus libelli reliquiis collaturi sunt vv. cll. Rödiger et Petermann. Vide Monats-bericht der Kgl. Akad. der Wiss. zu Berlin, 29 Nov. 1866.

Alterum mihi exemplum indicavit Wright in cod. 18295 chartaceo anni nostri 1603. Illic post Barhebraei Ethicam et alia f. 148 r. b. hic titulus legitur: ܬܘܒ ܢܡ̈ܘܣܐ ܕܡ̈ܠܟܐ ܙܟ̈ܝܐ ܘܡܗܝܡ̈ܢܐ ܩܘܣܛܢܛܝܢܘܣ ܡܠܟܐ. ܘܬܐܘܕܘܣܝܘܣ ܘܠܐܘܢ ܡ̈ܠܟܐ ܪ̈ܗܘܡܝܐ »Item Leges »regum victorum et Christianorum Constantini regis et Theodosii et »Leonis regum Romanorum". Sequitur praefatiuncula, qua ostenditur post Christi adventum omnes variarum gentium leges irritas factas et novas universo orbi terrarum a regibus Christianis constitutas esse. Deinde f. 148 v. b. ܕܪܓܐ ܩܕܡܝܐ ܕܝܪ̈ܬܘܬܐ »Primus gradus here»ditatis", quem titulum ea excipiunt quae in editione nostra ab initio usque ad pag. 31 versiculum 14 leguntur. Explicit in calce f. 149 r. b.

quae canibus tantum edenda (Prov. Sal. 26: 11) e ventre rejicis. At ܬܪܪܐ illud quod edideram, non est in cod. Davus sum, non Oedipus.

P. 141 vers. 19 *cum altero*] lege: cum deceptore (e conjectura Geig.).

P. 143 vers. 4 *procurationem?*] imo παραχώρησιν (cessionem), opinor.

P. 146 vers. 5 *finibus distant*] corrige: procul distant (Geig.).

P. 151 vers. 10 *non dederint*] delendum est »non".

P. 156 vers. ult. *nequam*] imo: athleta (RPS.); attamen adjective sumitur (Geig.).

P. 157 vers 14. Post emendationes quas Smithio et Geigero debemus, ita fere esse scribendum in aprico esset: »Verum quando tibi venter plenus »est, excedit (cf. Jer. 23: 9 ܐܝܟ ܓܒܪܐ ܕܥܒܪܗ ܚܡܪܗ). At non »tibi restat canibus edenda ventris redundantia". Haec ultima Geigerus ita explicat: »Allein der Auswurf des Leibes bleibt dir nicht (einmal) »als Frass für die Hunde; der Auswurf des Betrunkenen ist so ekelhaft, »dass ihn auch Hunde nicht berühren mögen". Fortasse melius etiam his reddenda esset sententia: Non tibi restant (non te ipsum juvant) ea

P. 88. Nestorianorum scripturae nihil est cum ea quam RPSmith p. 191 »middle-ancient or Meiocene" appellat. Ostendunt libri MSS., aliam fuisse scripturae Jacobiticae et Melkiticae, aliam Nestorianae historiam. Quumque minus accurate meam de palaeographia Syriaca sententiam retulerit vir clarissimus, nescio quid in ea exponenda peccasse mihi videor. Ergo quo melius intelligatur, quoddam ejus breviarium subjungere liceat.

1. E scriptura quam habemus antiquissima in nummis Edessenis conspicua orta est scriptura *majuscula* (Est'rangelo) in libris usitata.
2. E majuscula facta est compendiosa illa in epistolis, annotationibus subsecivis ett. usitata *minuscula* (Anecd. t. I. tab. V. spec. 11—12, VI. sp. 18, VII. sp. 25). Hae duae jam ante Nestorianos a Jacobitis et Melkitis separatos exstabant.
3. Apud Jacobitas et Melkitas Jacobi Edesseni exemplo tertium scripturae genus ortum est e majusculo et minusculo conflatum, quod *semiminusculum* appello. — In quibusdam autem libris antiquam illam majusculam adhibere pergebant.
4. Contra apud Nestorianos e sola majuscula paulatim facta est ea scriptura quam et in tabula mea XXII. sp. 110, 106, et in Syro-Malabaricis (tab. B. spec. 12) et prorsus eandem apud Syros juxta lacum Ormijae adhuc habitantes offendimus.
5. Denique apud eos Melkitas qui dialecto Palaestinensi utebantur item e sola majuscula facta est scriptura peculiaris; etenim adeo Graeca omnia illi orthodoxi adamabant, ut Graecas etiam literas unciales in libris ecclesiasticis imitari studuerint.

Quod dicit RPS. Christianos Malabarenses non Nestorianos sed Jacobitas esse, valde dubito. Imo facio cum vo. clo. Th. Nöldeke, hodie professore Kiloniensi, qui d. 5 m. Febr. anno 1863 haec mihi scripsit: »Scheint es Ihnen nicht auch, dass die Schrift der Indischen Syrer von »der Nestorianischen herkommt? (*Imo omnino eadem est.*) Ein zwingender »Beweis dafür, dass diese Christen ursprünglich Nestorianer waren, liegt »darin allerdings noch nicht, aber anderseits gebe ich auch nicht viel »darauf, dass in irgend einem Glaubensbekenntniss dieser Leute Nesto»rius verflucht wird. Diese arme Gemeinde ist eben ziel- und haltlos »und giebt jedem neu hinzutretenden geistigen Einfluss nach, wie ihr »Verhalten gegen die katholischen Missionen zeigt, die es nur dadurch verdarben, dass sie auch ihre Aeusserlichkeiten antasteten".

P. 90 in specimine e cod. 14510 nonnulla perperam explicui. In ejus versiculo 1 lege ܩܘܢܝܢ, in 2 ܟܬܒ ܐܠܫܡܐܣ. ܐܠܫܡܐܣ ܣܪܘܪ ܐܒܢ ܐܠܫܡܐܣ, in 3 ܩܘܐܢܝܢ. Sunt autem haec Arabica:

VII dedi versiculus alter hic est: ܐܒܪܗܡ ܐܣܝܪܐ ܨܠܘ ܥܠܘ(ܗܝ) »Abraham captivus; orate pro eo", scriptura vulgari. — Ergo Bardesanea jam sexto saeculo aderat.

Quid heic sibi velit ܐܡܬܗ (cum punctis et sup. et inf. in ܡܬ) nescio, nam evangeliarium fidelis ancillam vocari vix credam. Gargar dioecesis erat prope Melitenen, in qua anno Graecorum 1594 nulla domus supererat, teste Barhebraeo apud Ass. B. O. II. 260. In colophone semiminusculo anni numerus majusculis literis exprimitur, nec 1596 legi potest ut antehac judicabam. Itaque et duo libelli quos vidit v. cl. Petermann et Hartwelliani 4 et 5 saeculum VIII profitentur; scriptura semiminuscula ideo adoptata ut in angustiores terminos libri sacri cogerentur. Exempla sunt prorsus singularia.

P. 57. Atramenti parandi formulae exstant v. c. in codd. 14632 f. 1 r., 17 v., 14644, de quibus dicturus est Wright in Catalogo.

P. 58. Codex Cyrillianus est 14451; in ejus colophone legendum est ܙܘܓ et ܡܚܡܕܢ et ܒܡܩܡܩܡܐ et ܕܣܢܘܬܐ et ܕܦܬܝܚܘܬܐ (W.). Haud video quid possint ܣܡܟ ܬܐܘܡܘܬܐ in hac subscriptione et ܣܡܟ ܬܐܘܡܐ in codice 7149 significare nisi locutio sit primo adjective deinde ut heic substantive sumta, qua sententiae subjectum designetur. (Alia sunt ܬܘܡܝܢ ܕܢܝܐ quod olim laudavi, ܡܢܚܡܢܘܬܐ ܬܠܝܬܐܝܬ ܝܘܡܐ (ἀνάστασις τριθημερινός) 12174 f. 142 r. b. in fine, ܡܕܒܪܢܘܬܐ ܬܠܝܬܝܬ ܩܪܐ in Barhebr. Chron. prooem.). Duram esse dicendi rationem fateor; at utut est argutias satis ineptas verbis inesse constat. Quae ita verto: »Ne, »Domine, denegetur praemium (homini) quinque geminorum (τῷ τῶν πεν»ταχιςδιδυμῶν), qui laboravit semen tuum odoribus conditum spargendo »(ܚܡܫܐ ܙܘܓ ut saepius asyndeto utuntur) in agrum (i. e. pellem) anima»lium, alis volucrum, robore Dei". Quinque gemina fortasse sunt oculi, aures, nares, manus, pedes. — Porro in ann. p. 59 lege »eripiantur" et »habeantur", nam, ut fit, per anacoluthon ipsa quinque gemina in posteriori disticho pro subjecto habentur. Vocabulum ܓܒ cum غاية quam غب conferre malit Wright, verum sic non video quare terminationem femininam Syrus neglexerit; pluralem autem غاب per ܓܒܐ reddi exspectandum est. Caeterum nisi fallor et in cod. 14542 anni 509 de penna sermo est, et plura attulit Wright, quaestionem de pennae aetate sine dubio in Catalogo soluturus. Eam apud Syrorum librarios calamo antiquiorem esse jam nunc apparet. Adde quod etiam hodie literae crassiusculae voluminum Hebraicorum quibus in synagogis utuntur pennis exarari solent.

Vidisti nunc quid intersit inter Severum Patrum verba continua oratione laudantem et eum qui libellum e Severi et aliorum libris consarcinavit, quorum locos absque ullo orationis vinculo composuit. Itaque fateberis, epistolam ad Anastasiam in codice nostro non Ignatio sed Severo tribui. Quod ejus exordium a compilatore diserte revocatur, eandem ob causam factum est cui etiam in codicis f. 31 r. haec rubrica scripta debemus ܕܩܕܝܫܐ ܣܘܝܪܐ. ܡܢ ܡܐܡܪܐ ܕܬܪܝܢ ܕܠܘܩܒܠ ܢܦܠܝܘܣ. ܕܪܫܗ. ܚܢܢ ܣܦܪܐ ܐܠܗܝܐ ܘܦܪܘܩܝܐ. »Sti Severi e tractatu secundo contra Nephalium, cujus exordium: »nos librum divinum et Servatoris". Ergo capite 102 dicitur de iis qui tempore Crucifixionis resurrexerunt. In eo libri compilator unum laudat Severum Antiochenum, et primum quidem hujus commentationem contra Alexandri codicillos, deinde ejusdem epistolam ad Anastasiam diaconissam. Atqui et ipse Severus in hisce fragmentis alios scriptores invocat, nempe in commentatione Gregorium Theologum et Ignatium, in epistola Joannem Chrysostomum. Hos autem suo more inducit, casu nominativo atque addita sententia quadam, veluti: »Gregorius quidem ille Theologus »in oratione de Paschate, dum quaestionem uti oportebat extendit,

probanda. Atqui in his laudandis certam rationem observavit is qui libellum composuit; nempe singulis scriptorum nominibus praepositionem ܕ praemittit, ita ut hujusmodi formulis utatur: ... ܕܩܕܝܫܐ, ... ܕܝܠܗ, ... ܬܘܒ ܕܝܠܗ; nonnunquam dicit ... ܡܢ ܐܓܪܬܐ, ... ܡܛܘܡ ܕܡܫܬܐܠܢܘܬܐ, etiam ܡܢ ܦܘܠܘܣ (e Paulo apostolo, ac si libri hoc nomen esset). In fol. 26 r. a. legimus ܘܗܘ ܦܪܘܩܢ ܐܡܪ ܠܝܗܘܕܝܐ »et ipse Servator noster dixit Judaeis" et in col. b. ܘܦܛܪܘܣ ܠܘܬ ܝܗܘܕܝܐ ܒܦܪܟܣܝܣ »et Petrus ad Judaeos in Actis", verum neuter tanquam scriptor laudatur. Uno tantum loco post verba e Cyrillo adv. Succensum excerpta (fol. 29 r. a.) dicitur ܘܒܬܪ ܐܚܪܢܝܬܐ ܗܘ ܕܡܡܠܠ ܗܘܐ ܠܘܩܒܠܗ: ܘܦܪܨܘܦܐ ܐܚܪܬܐ ܐܚܝܕ ܗܘܐ ܐܡܪ »et post alia is qui contra eum (Cyrillum) »verba facit et alteram personam agebat, dicit:" at heic casu singulari nova formula postulabatur, quum verba repetenda essent ab ipso Cyrillo laudata. Itaque videmus qua ratione compilator ille Patres in auxilium vocare soleat; porro observandum est nullis titulis honorificis eum uti nisi ܕܩܕܝܫܐ et ܐܦܝܣܩܘܦܐ addito sedis nomine.

Merx in commentatiuncula quae hoc titulo »Zur ignatianischen Frage" in Hilgenfeldii Diario theologico, 1867, I, legitur. Ipsius verba repeto (p. 96): »Land will »zwar diesen Brief nicht auf Ignatius Namen schreiben, allein aus »ganz nichtigen Gründen. (nempe voluminis partes). Haec, ut antehac dixi, in alia intentus obiter perlustravi, et facilem errorem commisi, quem ostendit Wright, deinde alter veluti rem gravissimam delamentatus est (Anc. Syr. Doc. p. 149 sqq.).

P. 20. ann. ܫܪܒܠ] Frustra hanc etymologiam oppugnat Cureton Anc. Syr. Doc. p. 179, qui Beli nomen invenire sibi videtur, et diserte haec asseverat: »the compounds in ܐܠ, Hebrew אֵל, refer to the God of the Israelites, the true God, and not to the Chaldaeans, worshippers of Baal. The analogy, therefore, of ܐܟܝܒܠ and جبريل is not applicable". Manifestum est Curetonum dum haec scriberet ne cogitasse quidem quid esset ܐܟܝܒܠ; est enim idoli nomen (ܦܬܟܪܐ ܚܕ ܕܫܡܗ ܐܟܝܒܠ Acta S. Ephraemi ap. Ass. B. O. I. 27) = אֶבֶן אֵל »lapis dei". Et apud Phoenices quoque אל nomen divinum est; cff. inscriptiones a Gesenio in Monn. Phoenn., a Levyo in libello »Phoeniz. Wörterbuch" laudatae. Ergo ubi ܐܟܝܒܠ idoli Nisibeni nomen erat, ܫܪܒܠ »progenies dei" sacerdos Edessenus audire poterat. Alterum fortasse exemplum habemus Ass. B. O. II. 222, unde pagi nomen ܒܢܐܒܠ arcessivit Cureton; hoc, opinor, per »aedificavit Belus" interpretatus erat; atqui proxime praecedit nomen ܪܫܡܒܠ »signavit (utpote suum) deus". Attamen haud nego, ܫܪܒܠ fieri posse ut: »stabilivit Belus" significet (cf. יהויכין), dummodo ne alteram etymologiam »unquestionably erroneous" appelles.

decim annos, quam multa in aliis libris editis neglexerit postea variis in locis satis luculenter ostendi; attamen nunquam ideo mihi, non de hujus aevi hominibus sed de rebus Syrorum scribenti, in mentem venit una ejusmodi sententia integra scriptoris opera damnare. — Deinde, quod gravius est, in margine haec adjecit: » when such a one ... » presumes to accuse the Version of the venerable Translators of our Authorized Trans» lation of the Bible both of ignorance of the English tongue and of want of know» ledge of the geography of the Holy Land, it shows a degree of hasty self-reliance" ett. » See *Journal of Sacred Literature*, 1858". At quomodo judicandum de ejus fide, qui omisso manifesto erroris fonte, in libro quem laudat jamdiu digito demonstrato, cum sibi exquirit ex quo summae dementiae suspicionem alteri injiciat? Nempe haec in illo diario exstant. In succincta censura operis » Syriac Gospels" quam temporis gratia conscripseram, de versione Anglica conquestus eram, non antiqua illa et popularium laudibus celebrata, sed ea quam e textu Syriaco nuper invento Curetonus ipse confecerat. Exempla et alia et hoc laudaveram, quod Mt. 2: 16 vox ܬܚܘ̈ܡܐ per » coasts" (oras maritimas) nec per » boundaries, limits" reddiderat. Recte respondit S. P. Tregelles (ib. Jan. 1859 p. 409): » It is a pity Dr. L. did not look for one moment at our English » Authorized Version of the passage; he would there see our good hearty English word » coasts employed just as it is by Dr. C. . . . . Had he no friend who could have kindly » pointed out to him that his zeal . . . had carried him a little too far?" — Atqui diarii editori qui tunc erat haec corrigenda fuerant. Qui postquam plagulas correctas typographo tradideram, nonnulla suo arbitrio ridicule turbavit, denique post commentationem, more Anglico nomine meo non signatam, addita annotiuncula me ejus auctorem proclamavit; cujus rei si veniam, ut oportebat, petiisset, libenter ipse me professus essem. Quidni ergo et illum peregrini nolentis errorem eadem opera sustulit? Et quo tandem pacto post illa Tregellesii verba excusari possint ea quae scripsit Cureton utut vir doctus et integer, quibusque non poterat quin libellorum meorum odium et opprobrium popularibus artificiose instillare videretur? Imo praestabat errores quos in commune flebiliter deploravit diserte notare; nunc autem praeter ea quae in hac ipsa pagina correxi non nisi Wrightii observationem repetiit et etymologiam nominis ܐܪܒܠ sine causa vituperavit. — Quod Tregellesio rationem nunquam reddidi, editori illi tribuendum est, cujus fidei quidquam amplius committere nolebam. — Atque haec de istiusmodi apinis dicta sufficiant.

1) Quem omnes literis Syriacis ereptum ex animo dolemus Guil. Curetonum eundem tamen in libro laudato de scriptis meis levissimum judicium et literato viro plano indignum tulisse etsi invitissimus commemoro, non est quod silentio praeteream. Justas enim reprehensiones dum veritatis ergo grato animo accipimus, ac vulgi cavillas praetermittimus, injurias tanti viri auctoritatem prae se ferentes nemo honestus tolerare debet. — Nimirum jam in pag. 149 scripsit »the same want of knowledge or of attention which characterizes *all* Dr. L.'s publications which I have seen", quorum scriptorum quaenam legerit nec dixit nec quae dixit ullo argumento confirmare suscepit. Contra, quam parum diligenter ipse in praefatione Joannis Ephesini judicaverit jam ante hos un-

Caeterum universum volumen retractare atque omnes omnino ex eo errores tollere hucusque non suscepi. Etenim compluscula praesertim in versionibus Latinis peccata ut in legendo corrigant viri docti, mea opera non indigent; at contra non cuivis homini contingit adire Corinthum illam Britannicam. Quamobrem in praesens membranarum argumentis quam plurimis accuratius evulgandis otium impendere malui, quam iis laboribus quos plerisque Anecdoton lectoribus domi peragere licebit.

ADDENDA ET EMENDANDA

IN TOMO PRIMO.

Censurae quibus tomum primum aestimare et corrigere susceperunt viri harum literarum periti, tres mihi innotuere. Quarum una est vi. di. *Guil. Wright* in diario cui titulus „Journal of Sacred Literature, April 1863", paginis 115—130, qua utpote a custode codicibus Musei Britannici Syriacis praefecto horum contextus in edendo minus accurate expressi vindicantur et Prolegomena quoque compluribus in locis emendantur. Altera vi. di. *R. Payne Smith*, Oxoniae tunc bibliothecarii nunc theologiae professoris, thesauro linguae Syriacae e Quatremerii suisque schedis edendo occupati, in eodem diarii fasciculo pp. 187—199; qui imprimis de verborum significatione disputat. Tertia vi. di. *Abr. Geiger* rabbini Francofurtensis in diario q. d. „Zeitschrift der deutschen morgenländischen Gesellschaft" t. XVII (1863) pp. 752—762.

Quae in diariis „Clerical Journal, Feb. 5, 1863", „Home and Foreign Review, July 1863" et „Quarterly Review n°. 233, Jan. 1865" p. 175 de Anecdotis dicuntur nullam addendi emendandive praebent materiam.

Quum vero hujus anni menses Julium et Augustum Londini degerem, omnes codicum MSS. lectiones quas Wrightius in suo libri exemplari diligenter annotaverat in meos usus convertendi veniam impetravi; et varias ejusdem observationes obtinui. Denique et ego nonnulla hinc inde et antea collegeram et tunc in adversaria contuli.

nam et lexici magni Smithiani mox edendi auxilio multa accuratius quam hodie fieri potest interpretari licebit, et imprimis Syriaca mea haud diutius in scrinio servanda esse existimo. Quamobrem in hujus operis volumine tertio Historiam Miscellaneam cum caeteris Zachariae fragmentis historicis, in quarto Reliquias Christianas Palaestinas edere constitui.

Restat ut gratias agam viris doctis qui copiose de tomo primo existimantes hunc alterum locupletarunt et operis consilium adjuverunt. Quorum et reliquorum omnium tum sermonis tum rerum peritorum officia ne Syris meis defutura sint ex animo opto.

Scripsi Amstelodami d. 26 m. Dec. a. 1867.

CORRIGENDUM.

In h. t. pag. latina 8 vers. 12 sq. legatur: »et post alia is contra quem (Cyrillus) »verba faciebat et personam secundam (Trinitatis, ut videtur) sustinebat, dicit:" ctt.

potui librariorum puncta reddidi, singulis proxime a suis locis positis quantum per typorum rationem licebat. Quamobrem ܠܐ ܬܒܥܘܢ ܠܡܬܘܡܐ ܢܘܩܙܐ, ut est in 12174 f. 137 r. b. marg. inf.

Tabulas tomo secundo additas fore ut priores illas longe antecellerent speraveram. Sunt enim lucis coelestis ope in lapides translatae, ea artis ratione quam invenit civis noster E. J. Asser, jur. utr. doct. Consilium quidem erat ex ipsis membranis specimina photographica q. d. repeti; at Musei artifex privilegio gloriatus vitra quae negativa audiunt vendere omnino recusavit, et specimina suo more paraturus ejusmodi pretii portentum flagitavit, ut ipse penicillo in charta pellucida pingere denuo debuerim. Fateor, designationes ad unguem accurate in lapidibus exprimi vix potuisse, vitrorum culpa quae ita parare ut in aterrimo quasi fundamento candidissimi literarum ductus cernantur in hac praesertim artis ratione difficillimum est; quo fit ut nonnulla crassiuscula evadant et in lapidibus acu corrigenda sint. Attamen scripturarum species atque indoles in tabulis satis apparent, nec dubito quin ea quam proximo volumini addere in animo est, his etiam praestantior evasura sit. Quae extremis tantum lineamentis designavi, in membranis rubrica scripta sunt.

Versionem Latinam et scholia jam nunc conficere nolui;

nasve sarcirem. Quod in una Susannae historia codicem anni 875, neque palimpsestum anni 850 secutus sum, ideo factum est quod accuratius scriptus et correctus esse videbatur quam is cujus scriba Evangelia saeculo quinto exarata foedare non dubitavit [1].

In hoc etiam volumine scribendi errores repertum iri certum habeo [2]. Nec enim ad ipsas membranas plagulas exigere licuit; et solus sum in iis corrigendis; nec typi quibus utimur Wattsiani, etsi nitidissimi, omnia reddere valent. Deest *ribuj* in literis ܠ et ܬ [3]; deest punctum superius in ܕ et ܢ [4] et ܝ et ܪ̇ [5], deest inferius in ܕ et ܪ̇. Nec licet in eadem litera punctum superius cum inferiori [6] nec cum alterutro *ribuj* conjungere [7]. Deest etiam facultas puncta seu supra literarum ejusdem vocis intervalla sive infra ea collocandi, quod passim fit in codicibus MSS. [8]. Igitur ut

sum. Post duos annos literas Orientales et philosophiam docendi officio paululum assuefactus, ea quorum apographa habebam ante anni 1867 ferias aestivas typis absolvi. Has Londini impendi et in caetera Joannis fragmenta Wrightii ope colligenda, et in retractandam Historiam Miscellaneam (cui omnes Zachariae reliquias addidi), et in Pauli Persae Logicam describendam, et in ea delineanda quae et hujus et proximi tomi tabulis destinabam, denique in graviores tomi primi errores notandos.

Ergo omnia quae Joanne episcopo Ephesi auctore Londini inedita supererant hodie tibi offero. Romae autem quantum scimus nulla adsunt nisi quae in Dionysii Telmah'arensis Chronicon recepta J. S. Assemanius in Bibliothecae Orientalis tomo II. pp. 84—90 excerpsit. Nec apparet in ulla alia Europae bibliotheca scriptoris nostri fragmenta, ne dicam integros libellos asservari.

Sunt quae in plus uno codice Londinensi legantur. Attamen varias lectiones undique colligere, etsi ad librariorum mores et sermonis usum cognoscendos minime inutiles, in hac librorum typis descriptorum penuria et vetustorum exemplarium bonitate otiosum mihi visum est. Interim hoc tantum egi ut in omnibus Joanneis describendis meliores et antiquiores libros sequerer, caeteris in auxilium tantum vocatis, quibus dubia de elementis evanidis solverem lacu-

At teste Curetono plura ejusdem auctoris scripta in membranis Nitriensibus supererant. Quorum meliorem certe partem in lucem proferre jam ante hos decem annos in Britanniam profecturus mihi proposui, atque tunc e codicibus 14647 et 14650 Beatorum Hominum Vitas et Historiae Ecclesiasticae fragmenta descripsi. Reliqua conquirenda in proximam occasionem distuli, nec fieri poterat in tanta librorum copia a nemine prorsus examinata, ut omnia me possidere pro certo scirem.

Interea Musei conservatoribus adscribitur v. d. Guil. Wright, cujus laboribus magnae molis catalogus tandem aliquando absolutus est. Amici hujus mea laude majoris eximiam benevolentiam plus uno nomine grato animo recordor. Nam et Anecdoton tomum primum publice judicans me juvenem, Syriaca quam plurima describere festinantem, compluribus in locis egregie errasse demonstravit, et ad reliquarum chartarum vitia corrigenda sua ipsius officia ultro obtulit. Itaque me rogante (quippe qui munere in patria detinebar) Joannis apographa quae feceram cum libris Londinensibus denuo contulit, iis horis usus quibus ipsius Musei negotiis vacare lege non obligabatur. Has igitur chartas emendatas anni 1864 initio prelo subjicere incepi, — mox autem professoris publici provinciam ab hujus urbis senatu nactus, labores typographicos interrumpere coactus
